

Harbinge.rs: Capability Statement

Field intelligence products for regulated industries · Harbingers LLC · Upland, California

COMPANY OVERVIEW

Harbinge.rs builds RF and BLE-based field intelligence products for regulated industries. Our flagship product, **Forager**, lets healthcare IT, biomedical, and facilities teams confirm asset presence, automate location records, and eliminate manual search time, without installing fixed infrastructure.

CORE COMPETENCIES

- Indoor asset tracking and presence confirmation using passive RF/BLE signal observation
- Mobile-first survey and scanning workflows for Android: BYOD compatible, no MDM or corporate network required
- Healthcare IT workflow integration: designed around the operational realities of clinical environments
- Designed for HIPAA-covered environments: Row-Level Security, hashed identifiers, BAA available
- Rapid deployment: most deployments launch same day on personal or corporate Android devices

PRODUCTS

- Forager Mobile (Android):** RF/BLE scanning app. Confirms asset presence, logs location, syncs to cloud in real time.
- Forager Cloud:** multi-tenant SaaS dashboard. Asset management, team management, audit trail, reporting.
- Forager Rounds:** scheduled inspection and compliance rounds for fire/life-safety, environment-of-care, and general facilities maintenance, with photo/timestamp proof-of-presence, offline capture, and audit-ready reporting.
- Ravens (in development):** purpose-built RF/BLE beacons for autonomous, scheduled asset location updates, primary-cell powered for multi-year field life, with no fixed reader or charging infrastructure required.

DIFFERENTIATORS

- No fixed reader infrastructure required; uses the existing RF environment
- Works on personal Android phones (BYOD): no VPN, no MDM, no corporate Wi-Fi needed
- Built for regulated industries from day one: designed for HIPAA-covered environments, audit trails, tenant isolation
- Same-day deployment; no IT project required to start
- Supply chain free of covered telecommunications equipment; radio silicon sourced from Nordic Semiconductor (Norway)

GOVERNMENT & DEFENSE APPLICATIONS

- Property accountability:** periodic inventory and presence confirmation of accountable equipment without barcode line-of-sight or handheld RFID readers
- GPS-denied environments:** indoor, below-grade, and shielded spaces where satellite positioning is unavailable
- Expeditionary and temporary facilities:** no fixed readers to install, power, or leave behind
- Applicable to military treatment facilities, VA medical centers, depot and warehouse operations, and university or agency equipment inventory

COMPANY STATUS

Harbingers LLC was founded June 3, 2026. Forager Mobile and Forager Cloud are in production and commercially available. The company is pre-revenue and is currently recruiting founding pilot partners in Southern California healthcare. An NIH STTR application is in preparation for the January 2027 cycle with an academic research partner.

LEADERSHIP

Founded by **Thaddeus Stepanovich**: three decades in healthcare, from 14 years in EMS, to directing End User Services at a Fortune 50 non-profit healthcare provider, to clinical imaging application support at one of the nation's largest non-profit health systems.

BUSINESS INFORMATION

Legal Name	Harbingers LLC
DBA	Harbinge.rs
Business Type	Small Business (LLC)
State of Formation	California
Location	Upland, CA (San Bernardino Co.)
SAM.gov UEI	RN4TPLJ7R8P8
CAGE Code	21YW0
SBIR/STTR SBC	SBC_002678184

NAICS CODES

513210 (primary)	Software Publishers
334220	Wireless Communications Equipment Mfg.
518210	Computing Infrastructure & Data Services
541511	Custom Computer Programming
541512	Computer Systems Design

HOW TO BUY

- Open market, micro-purchase, and simplified acquisition (FAR Part 13)
- Eligible for small business set-aside and sole-source awards
- SBIR/STTR eligible; SBC Control ID registered with SBA
- Direct from the manufacturer; per-device annual licensing
- Purchase orders referencing an executed Order Form accepted
- No GSA Schedule at this time; MAS eligibility requires two years of operating history

COMPLIANCE POSTURE

- HIPAA Business Associate Agreement available
- Data Processing Agreement available on request
- SOC 2 Type 2: control narrative complete, observation period not yet started
- Section 889 compliant supply chain
- Multi-tenant isolation enforced at the database layer; hashed identifiers; full audit trail
